 d. Are there any other Public Works Wage Decisions related to this project?: No
 e. What is the ultimate purpose or functional use of the construction once it is completed?: Video Control Room Upgrade

6) Classifications of Construction:

Classification Type and Cost Total	Description
General Building (B) Cost: \$963,173.00	<p>A. Contractor is responsible for providing all audio equipment as described and listed in the project RFP Bid Form document. All additional equipment needed to provide a complete turn-key system shall be listed by the Contractor in the Additional Items Required section of the RFP Bid Form document.</p> <p>B. Contractor is responsible for supplying complete and fully operational system(s) as intended by the RFP documents and any subsequent addendums. Prior to executing a contract for the project, contractor is responsible for notifying Owner of any equipment omissions in the RFP documents that may prevent the completion of fully operational system(s). If the Contractor fails to notify Owner of any equipment omissions, Contractor shall assume responsibility for providing the required equipment at no additional cost to Owner.</p> <p>C. Contractor shall field verify all work-site conditions prior to submitting shop drawings.</p> <p>D. All equipment (except Owner Furnished (OFE)) and materials shall be new (latest version at time of RFP) and shall conform to</p>

applicable UL, EIA, TIA, or ANSI guidelines. Remanufactured or B stock equipment will not be accepted without prior written consent from the Owner. Evidence of unauthorized remanufactured or B stock equipment on the project site will be deemed evidence of the Contractors Failure to Perform the Work.

A. Contractor shall take care during installation to prevent scratches, dents, chips, or disfiguration.

F. Alternative solutions will be evaluated and must be submitted on a separate Proposal Pricing Form marked as Voluntary Alternate. Alternates must include device data sheets and a narrative description of the alternate solution.

G. Contractor will provide and install specified signal transmission equipment.

H. Contractor will provide and install Head End equipment listed in the RFP Bid Form and Technical Specifications.

I. Contractor will provide single-line schematic drawings of all systems being provided and installed. Include existing systems in the updated drawings where new system device(s) may interface. Provide floor plans and elevations as required, including 3D or isometric views showing this work.

J. Contractor is responsible for the provision and installation of all secondary structural steel (i.e., conduit and raceway supports, hardware mounting systems, etc.), as well as mounting brackets and hardware required to accommodate the new system(s). This includes all labor, materials, equipment, tools, transportation, and project management required to complete fully operational system(s) for the project.

K. Contractor is responsible for assembly, secondary modifications (if necessary) and mounting of all system(s) components to new and/or existing structures.

L. Owner will provide Primary Power at defined demarcation points as shown in the project drawings.

M. Contractor is responsible for all power and electrical distribution from demarcation points (Secondary Power) to new system (
