5) Estimated total project cost: \$1,200,000.00
a. Are any federal funds involved?: No
b. Does this project involve a building?: Yes - New security cameras and existing security camera upgrades will be completed effecting roughly 20 buildings throughout the campus. These buildings will include academic and support facilities.
c. Is this part of a larger plan for construction on or appurtenant to the property that is subject to this project?: No
d. Are there any other Public Works Wage Decisions related to this project?: No
e. What is the ultimate purpose or functional use of the construction once it is completed?: A properly designed, installed and analyzed surveillance system can be one of the most valuable tools in protecting the students and staff on campus inside and outside of all structures.

6) Classifications of Construction:

Classification Type and Cost Total	Description
General Building (B) Cost: \$1,200,000.00	Upgrade existing security camera network and additional cameras for locations not presently covered by the existing security camera system. Specific tasks may include pulling cable, installing cameras, and connecting cabling to NMMI IT infrastructure.
