 - d. Are there any other Public Works Wage Decisions related to this project?: No
 - e. What is the ultimate purpose or functional use of the construction once it is completed?: Replace an existing water line

6) Classifications of Construction:

Classification Type and Cost Total	Description
Highway/Utilities (A) Cost: \$451,566.84	[] Excavation of approximately 1,135 ft. of trench adjacent to old iron pipe, between existing connection points of old iron pipe and existing PVC pipe. [] Installation of new 12-inch class PVC pipe to replace iron pipe and connections to existing PVC pipe. [] Installation of 45-degree double cleanouts approximately every 200 feet. Six total to be installed. [] Installation of any unions or couplers needed. [] Installation of tracer wire along the length of new line. [] Contractor is responsible to supply all equipment, tools, and materials to complete the project. [] Contractor is responsible to ensure all bedding and backfill material, and compaction of those materials meet compliance standards. [] Contractor will be supplied with the best information available for existing infrastructure, but will be required to modify as necessary, pending any unforeseen circumstances that may arise.

	<p>Contractor will need to coordinate all work with Hatchery Manager (Leon Krabbe) to establish areas for equipment staging, brush disposal, or any other potential need/concern that may impact hatchery operations.</p> <p>A mandatory sight visit with the Hatchery Manager (Leon Krabbe) is required before bids are provided.</p>
